SIEVE SHAKER OCTAGON 200CL AND SIEVEWARE EVALUATION SOFTWARE

Endecotts sieve shaker Octagon 200CL competes with the most advanced sieve shakers in the world. Several unique features have been developed specifically for this machine, including the 'Closed Loop' amplitude control for ultimate reproducibility.
It is also fully compatible with the SieveWare - evaluation and control software via RS232 Port.

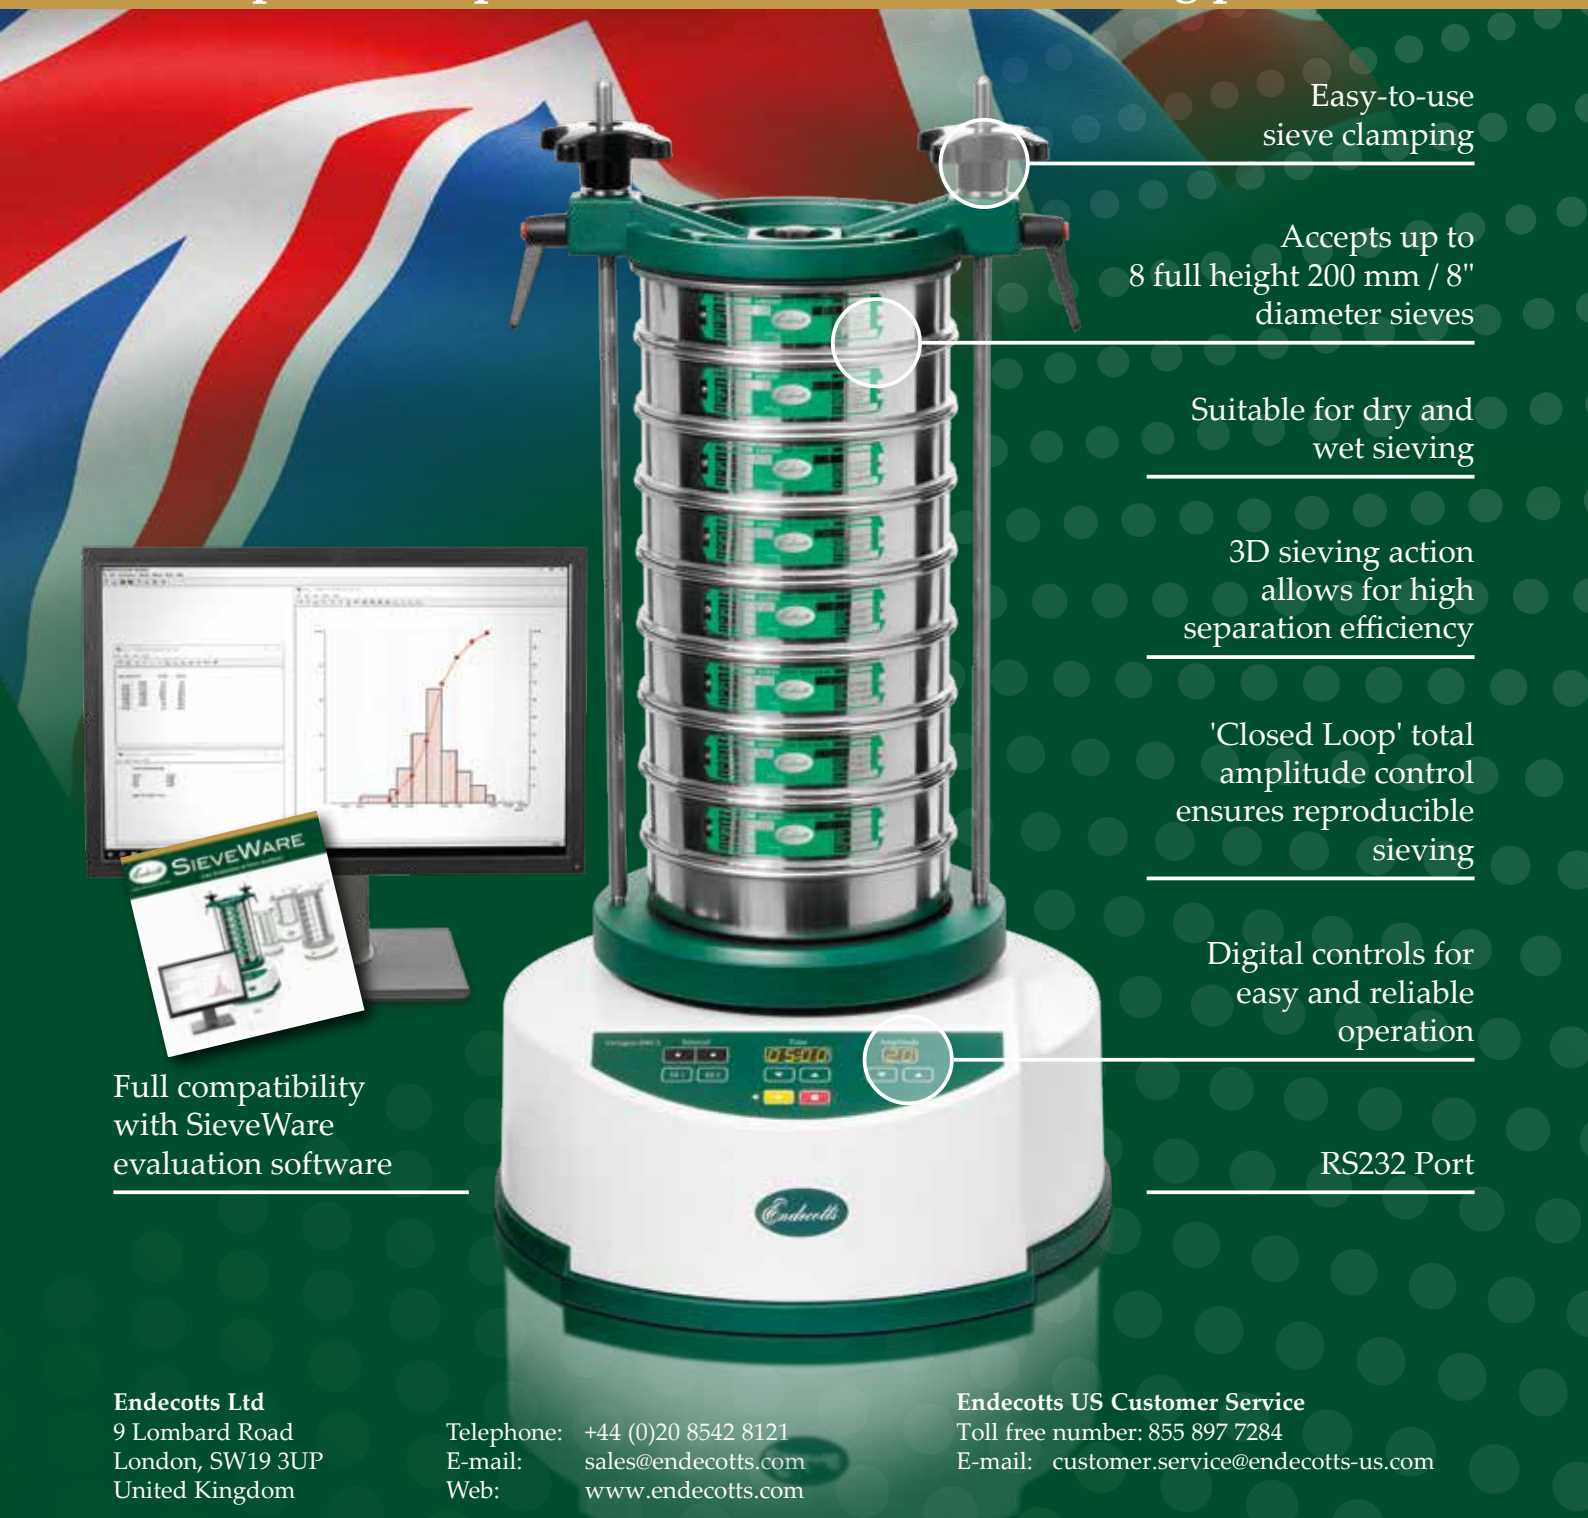

Endecotts evaluation software makes sieve analysis simple and more comfortable than manual evaluation.
The SieveWare enables the automatic sieve evaluation with the Octagon 200CL.
Once set up, the evaluation and weighing process becomes extremely easy and efficient. It eliminates errors and provides trouble-free analysis of your sieving data.

SIEVE SHAKER OCTAGON 200CL

For precise, reproducible and error-free sieving processes

Easy-to-use sieve clamping

Accepts up to 8 full height 200 mm / 8" diameter sieves

Suitable for dry and wet sieving

3D sieving action allows for high separation efficiency

'Closed Loop' total amplitude control ensures reproducible sieving

Digital controls for easy and reliable operation

RS232 Port

Full compatibility with SieveWare evaluation software
